170,359

Visits to our Emergency Department

136,821

Babies born

6,801

Clinical trials and studies

1,100+

Patients recruited for research studies in a typical year

11,547

Investing in the future

Two major developments opening in 2019:

- a new centre to provide **proton beam therapy**, Europe's largest centre treating blood disorders and a short stay surgical centre.
- a **specialist centre for services** currently at the Eastman Dental and the Royal National Throat, Nose and Ear Hospitals.

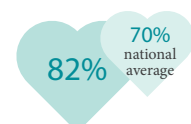

We are **modernising and improving** the National Hospital for Neurology and Neurosurgery and **Emergency Department**, University College Hospital.

We are working to deliver the **Five Year Forward View** with colleagues from North Central London

Confidence in our services

Inpatients would **recommend** us to family and friends

Staff would **recommend** us if their family and friends needed treatment
