Number of staff

Number of beds

Turnover

£1 billion+

Number of Foundation Trust members

What we do

Patients seen per year

1,000,000+

Visits to our Emergency Department

Babies born

Clinical trials and studies

Patients recruited for research studies in a typical year

Investing in the future

Two major construction projects continued:

- Opening in 2019: a specialist centre for services currently at the Eastman Dental and Royal National Throat Nose and Ear Hospitals.
- Opening in 2020: a new facility which includes Europe's largest centre for blood disorders, short stay surgery and a national proton beam therapy centre.

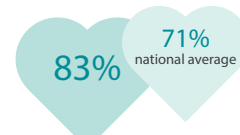

We have **modernised and improved** the National Hospital for Neurology and Neurosurgery and Emergency Department, University College Hospital.

We continued to work closely with our partners across North Central London to improve care for our local patients.

Confidence in our services

Inpatients would **recommend** us to family and friends

Staff would **recommend** us if their family and friends needed treatment
