The Colorectal Multidisciplinary Team (MDT)
At UCLH we work as a team to meet your needs as a patient. We have weekly meetings where we discuss your case with both the Colorectal Surgeons, Liver Surgeons, Medical Oncologists, Clinical Oncologists, Radiologists, Histopathologists and Nurse Specialists. From this meeting we will develop a proposed treatment plan for you. This will then be discussed during your clinic appointment giving you the options available and the consensus from our meetings.

Key Worker
All patients have access to a Key worker. This is someone who has knowledge of your treatment plan and can assist and advise you about any symptoms or any social, psychological and financial needs you may have during your treatment and once it has been completed. This is available for both you and your family during this time as we are aware that your home support is important while you are having treatment (we will ask your permission before involving any of your family).

Your Key Worker is:

Colorectal and Anal Cancer Nurse Specialist
Jacquie Peck

Telephone:    020 3447 9188
24 hour answer machine checked daily
Mobile:    07949 596 391
Fax:    020 7380 9065
E-mail:    Jacquie.Peck@uclh.nhs.uk

Please note that the answer machine is checked once daily. Calls will be returned within 24 hours of the CNS picking them up. Messages left on the mobile will be returned as soon as possible though this may take a few hours if the CNS is in clinic. For calls about outpatients appointments or imaging concerns, please contact your consultants secretary or Jenny Holland, MDT coordinator.
